

Just a reminder that Bayport Veterinary Hospital is open for business during the coronavirus pandemic.

We have implemented temporary changes to our daily protocol to ensure the safety of our staff and clients.

Currently we are providing “contactless” vet visits. We are asking everyone to call our office when you arrive so that we may meet you at the door for any transactions. All exam findings will be discussed via phone during the visit while you are in the parking lot.

If you need any medication, heartworm, or flea and tick preventatives refilled, we ask that you call in advance to order and pre pay.

We at Bayport Veterinary Hospital appreciate your understanding during this difficult time. As always, the health and well-being of your pet is of the utmost importance to us. We will continue to monitor the situation and follow the guidelines set forth by the CDC. We will modify these temporary changes in accordance with these guidelines. Stay safe and healthy.

-Dr. Wheat
